

AI inside's AI-OCR "DX Suite" Connected to Cloud-based Accounting Software "Accounting free"

Tokyo, April 30, 2021 -- AI inside Inc., a provider of an AI platform, announces that AI inside's AI-OCR "DX Suite" and freee K.K.'s cloud-based accounting software "Accounting free" is now linked by API through the invoice automation connector "DX Suite x Accounting free Connector". With this linkage, it is now possible for DX Suite to read the paper invoice data and automatically register the contents to Accounting free. DX Suite users and companies using Accounting free can automate invoice data entry work, which further promotes operational efficiency. This connector is now available on the free app store.

About the "DX Suite x Accounting free Connector"

With the API linkage of AI inside's DX Suite and freee's Accounting free, anyone can now easily register paper invoices as transaction data in the accounting software.

The previous flow was being processed by receiving the invoice from the business partner, scanning and activating DX Suite, and importing the output csv file into Accounting free using RPA and such. With this connector, customers can import the scan data directly from Accounting free without activating DX Suite. Since DX Suite automatically recognizes each format of invoices, users can use this service without set-up. Users can confirm and edit both the uploaded invoice files and registered data through the user's page of Accounting free.

How to Connect DX Suite and Accounting free

"DX Suite x Accounting free Connector" is available in free app store. After selecting the required account and tax classification and entering the domain and API key of users DX Suite, the transaction data will automatically be registered to Accounting free by uploading the invoice file.

About DX Suite (<https://dx-suite.com/>)

"DX Suite" is an AI-OCR service equipped with "character recognition AI" which is in-house developed by AI inside. It can read handwritten words with high accuracy which were difficult to read by the conventional OCR and automate the data conversion work which has been done manually. As of the end of December 2020, DX Suite has more than 12,900 users, and we are contributing to numerous companies on digital transformation and productivity improvement. The service supports the reading of Japanese, English, Traditional Chinese, Thai, and Vietnamese Languages.
